#### 6. PROJECT WORKPLAN

Describe the major activities, expected outputs and timelines in the chart below or please attach a copy of your work plan. Your work plan should show how you expect to complete your project from start to finish. Your description of activities should lead to the completion and success of the project in a logical and timely sequence. Be as detailed as possible (i.e. – if your project includes language classes, how many language classes? If your project includes traditional teachings, how many traditional teachings?)

Activities	Outputs (products/services)	Timelines

Your work plan should show from start to finish how your project will be completed – from planning to implementation and to completion of your project.

Your work plan should be detailed enough for the person screening proposals to get a good understanding of how you intend to complete your project.

#### 7. PROPOSAL BUDGET

Applicants should refer to Sections 2.5-2.8 in the Fund Guidelines and are required to submit a project budget, which includes Total Project Costs, Applicant Contributions (inkind, financial) to the project, and the amount of the Funding Request to the Niigaan Gdizhaami Fund. **Use only sections that apply to your project.** 

Complete the budget lines below as relevant – for any items not applicable, please note "N/A". The budget should include a detailed description of each budget item under the "Expense Details" column and the total applicable "Cost".

Please note that per section 2.7 of the Fund Guidelines, the following costs are *not* eligible for this Fund:

- Core business or operations;
- Consulting services;
- Infrastructure, major renovations or construction;
- Software or licenses not directly associated with the funded project;
- Furniture or equipment not directly associated with the funded project;
- Grants or bursaries: and.
- International travel.

All funding provided to successful applicants must be expended between September 1, 2020 and August 31, 2021.

#### **Individual Anishinabek First Nation Projects:**

The Fund can provide a maximum of \$25,000 for individual projects.

The Fund can support up to 75% of the total project cost.

For example: if the total project cost is \$33,000.00, the Fund may contribute a maximum of 24,750.00 (33,000 x .75 = 24,750).

The Applicant is expected to provide a contribution (in-kind or financial) equal to at least 25% of total project cost.

For example: if the total project cost is \$33,000, the Applicant must contribute at least  $88.250 (33.000 \times .25 = 8.250)$ .

#### **Group Projects:**

The Fund can provide a maximum of \$50,000 for group projects.

The Fund can support up to 75% of the total project cost.

For example: if the total project cost is \$66,500, the Fund may contribute a maximum of 49,875 (66,500 x .75 = 49,875).

The Applicant is expected to provide a contribution (in-kind or financial) equal to at least 25% of total project cost.

For example: if the total project cost is \$66,500, the Applicant must contribute at least  $$16,625 (66,500 \times .75 = 16,625)$ .

Please see sections 2.7 of the Fund Guidelines for costs that are **not eligible** for this Fund.

For example – software or licences that are not directly associated with the funded project are not eligible for this Fund. However, if the software or licenses are directly associated with the funded project, then it may be eligible.

Explanation of formula required for in-kind/financial contribution. (See page 9 for more information)

#### 1. PROPOSED PROJECT OBJECTIVES

What are the project's primary objectives in relation to the 2020-2021 priority to your project's summary objectives AND summarize how your project will meet

areas identified in Section 2.4 of the Fund Guidelines Please check ALL that apply these priority areas. Increasing knowledge and understanding of Anishinabek histories, cultures, perspectives, languages, and contributions ("Bimaadziwin") and traditional Anishinaabe knowledge passed down from one generation to the next through ceremonial teachings ("Kendaaswin") Summarize how your project will meet this priority area: This will be accomplished through the workshop with Elder and historian. Students will learn about history, culture and teachings of trapping. Included in these teachings are respect for the animal, feasting the animal, etc. Finally, community feast will include honoring students with community drum. Enhanced opportunities for the engagement and participation of Anishinabek students, families, and communities to support Anishinabek student success and well-being Summarize how your project will meet this priority area: This will be accomplished through engaging the community and parents. Letters of invite will be sent to parents, encouraging them to participate. The community will participate in community feast once trapping program is completed. The students will show community presentations on what they learned through trapping program, along with samples of furs they harvested. Facilitating the successful transition of students between Anishinabek First

Nations' schools and schools in the Provincially-Funded Education System

	Summarize how your project will meet this priority area:
Ø	Innovation and introduction of leading practices in Indigenous education  Summarize how your project will meet this priority area:  This will be accomplished through introducing a foundational part of indigenous history and culture into the school setting. This can become a leading practice by introducing more land-based type of programs, such as fishing and hunting.
	Supporting collaboration between the AES and School Boards, including data and information sharing.  Summarize how your project will meet this priority area:

#### 2. PROJECT SUMMARY

Provide a synopsis of the project. Include: the need for the project, activities to be undertaken, and the expected outcomes/results to be achieved.

Regional Location of the Project:
SAMPLE LOCATION

Context of the Project: (describe why this Project is needed. What will this Project accomplish? This sets the stage for your Project):

Context: Anishinabek people are caretakers of the land. Traditionally, we lived off the land. Anishinabek people have a connection to the land. It is important to keep this connection to the land alive. This can be done through bringing students out on the land and teaching them about how their ancestors trapped. Having a connection to the land will allow students to connect to who they are historically, thus assisting with their self-esteem and identity as Anishinabek.

#### Need(s) for the Project:

Many students do not get out on the land. Our ancestors harvested animals off the land and many Anishinabek still do today.

Trapping was and still is a vital part of our culture, way of life, source of food and source of income. Trapping and harvesting is a great skill for students to have. It is important for students to learn the Western way of life and education (i.e. – math, science, language, etc.). However, our history, culture and traditions are equally important. A trapping program over a semester will teach a glimpse into the history and tradition of trapping.

Furthermore, utilizing the land, specifically our traditional territory is vital for us today and vital for our future. Our rights as Anishinabek people are dependent on us, as Anishinabek utilizing our traditional territory.

Finally, this Trapping Program will assist with the well-being of students. Knowledge of traditions and culture is a big part of well-being and assists with a sense of belonging. Students will be honored by Community and Elders at end of Trapping Program.

#### Project Activities to Address Identified Need(s):

Anishinabek culture, trapping, Anishinabek history, Anishinabek traditions.

#### Target Audience:

Grade 7 & 8 students and parents of SAMPLE SCHOOL

#### Project Outputs (products or services, if applicable):

Trapping Certificate
Presentation by students of program
Report and data on program
Integration of learnings into other areas

#### Project Outcomes (results):

Knowledge of trapping
Knowledge of history of trapping

Knowledge of culture

Knowledge of harvesting animals

Knowledge of traditions (offering tobacco when harvesting an animal, etc.)

Hands-on experience with using traps and snares

Hands-on experience with harvesting (skinning, stretching furs)

End of program presentation to community on program

#### 3. PROJECT EVALUATION AND PERFORMANCE

Applicants need to demonstrate how they will measure and determine project success (example – surveys before course/workshop and surveys after course/workshop).

#### How will you determine and measure success?

Successful completion of trapping program

Trapping Certificate earned by students

Survey before program takes place. Questions such as:

- Do you know what trapping is?
- Have you ever trapped? Does anyone in your family trap?
- Do you know how to harvest an animal?
- Do you know the history of Anishinabek people trapping?
- Do you feel that learning about Anishinabek practices such as trapping important to you?

Survey after program takes place. Questions such as:

- If you did not know what trapping was before the program, do you have a good understanding of it now?
- Can you describe how you felt after being out on the land trapping?
- Did you find this program useful?
- Will you use the skills you learned in the future?

End of program project – students will work in groups to create a presentation on what they have learned from the program and how it has affected them.

What indicators of success will you use? (e.g., key benchmarks and/or targets)

Completion of trapping program

Data from survey

Student Presentations – evaluated through a rubric

#### How will you collect data and monitor performance?

Debriefing with students after each class – document debriefing for report (ask students how they felt after each class and what they learned, their observations) Data will also be collected through program culminating presentations - products Attendance during dedicated classes to trapping; impact on general attendance at school

Initial survey and end-of-program survey Ongoing assessments

#### 4. SHARING PROMISING PRACTICES

An objective of the Master Education Agreement is to share knowledge about promising practices. Do you intend to share promising practices developed through your project? If so, how?

Yes, will share promising practices.

Will share at RECC meetings, February Forum if asked, will share with Niigaan Gdizhaami Fund Coordinator.

Will take pictures during project and create a poster/presentation to show others. Will document enlightening statements from students to include in presentation.

#### 5. ENGAGEMENT

Describe how communities and/or partnering organizations (other Anishinabek First Nations, School Boards, and/or affiliated third parties) will be engaged throughout the project, including sharing project outputs or outcomes.

Parents will be engaged (they are encouraged to attend the trapping program and trapping excursions)

Community will be involved – students will host a community feast after the program is completed and present their projects of what they have learned through the trapping program.

Community will be involved in an honoring ceremony for the students who took the program.

#### 6. PROJECT WORKPLAN

Describe the major activities, expected outputs and timelines in the chart below or please attach a copy of your work plan. **Your work plan should show how you** 

expect to complete your project from start to finish. Your description of activities should lead to the completion and success of the project in a logical and timely sequence. Be as detailed as possible (i.e. – if your project includes language classes, how many language classes? If your project includes traditional teachings, how many traditional teachings?)
