KINOOMAADZIWIN EDUCATION BODY

WORKING TOGETHER TO SUPPORT THE EDUCATIONAL JOURNEYS OF ANISHINABEK STUDENTS

The Multi-Year Action Plan is a three-year work plan supporting the implementation of the Master Education Agreement. The Journey Map visual illustrates the relationship between the Multi-Year Action Plan and the traditional Anishinabek governance Dodemaag system. Each project in the Multi-Year Action Plan plays a role within this system.

At the center of the visual, an infinite sweetgrass braid symbolizes the relationship between the Participating First Nations of the Anishinabek Education System, the Kinoomaadziwin Education Body, and the Ministry of Education. This relationship is the driving force behind the Master Education Agreement and the Multi-Year Action Plan. For students of the Anishinabek Education System, collaboration among these parties is integral to supporting their educational journeys and promoting their overall success and well-being.

To learn more about the 6 projects of the Multi-Year Action Plan, please click on the project titles or visit www.aes-keb.ca/MYAP

Relationships

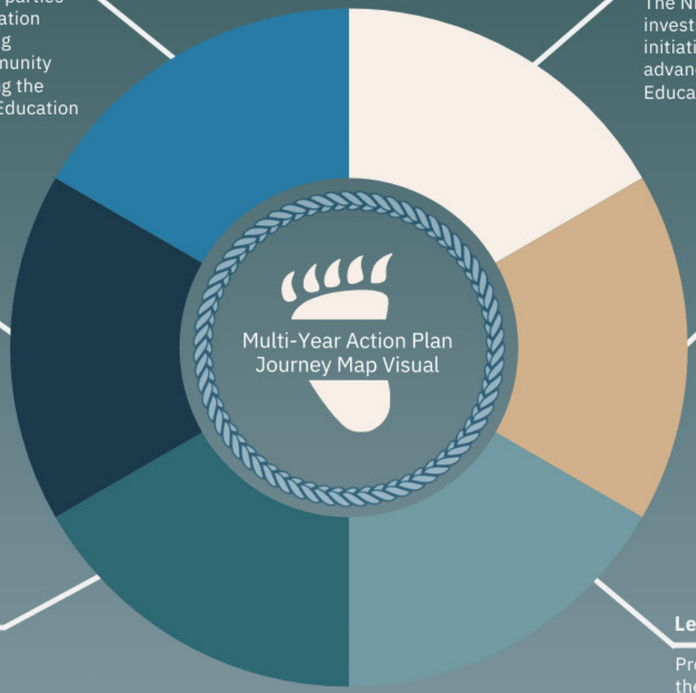
Enhancing the collaboration among the parties to identify successful practices in education program and service delivery, promoting opportunities to foster family and community engagement, and continually developing the relationship between the Anishinabek Education System and Ontario.

Student Success & Wellness

The Master Education Agreement outlines a shared vision for student success and well-being, addressing physical, mental, emotional, and spiritual health. The project focuses on adapting and developing pathways and programs for student success and well-being that incorporate Anishinabek perspectives.

Data, Research and Evalution

Establishing processes to align standards, collaborate with all parties, and monitor Anishinabek student achievement through data, research, and evaluation.



Niigaan Gdizhaami Fund

The Niigaan Gdzhaami Fund supports and invests in community and joint projects and initiatives that are locally developed and advance the objectives of the Master Education Agreement.

Special Education

The Special Education Program focuses on building and adapting existing guidelines, directives, and resources to address gaps and ensure alignment between the AES and the provincially funded education system. This is achieved through the development of culturally appropriate approaches, ongoing engagement, and collaborative professional development with partnering District School Boards.

Leadership & Professional Development

Professional development and leadership at all levels of the education system are foundational to student success and school effectiveness. This project works to develop collaborative learning opportunities that increase knowledge and understanding of bimaadziwin, kendaaswin, and the Anishinaabe language in Anishinabek First Nation and provincially funded schools.

TRADITIONAL ANISHINABEK GOVERNANCE CLAN SYSTEM

TURTLE CLAN: LAW MAKERS

The Turtle Clan are the healers, possessing knowledge of medicine and providing guidance. They also assist in resolving disagreements between the clans.

LOON CLAN: INTERNAL

The loon dives and observes the events beneath the water. The Loon Clan is known as the Inside Chief, as they are responsible for settling disputes and issues within their community.

CRANE CLAN: EXTERNAL

The crane stands in the water, observing the world above the waterline. The crane watches the outside world and is known as the Outside Chief. The Outside Chief is responsible for negotiations with people from other communities (Nation-to-Nation).

DEER CLAN: SOCIAL

The Deer/Hoof Clan is known for its kindness, gentleness, and soft-spoken nature. The Deer/Hoof Clan is responsible for the social aspects of the community, including ceremonies and celebrations.

BEAR CLAN: HEALTH

The Bear Clan is responsible for protecting their people and ensuring the safety of the gentler clans within the community. The Bear Clan is also known as the medicine people, possessing knowledge of the healing properties of plants.

EAGLE CLAN: EDUCATION

The Eagle Clan, also known as the Bird Clan, is considered the closest to the Creator, as they are part of the sky world. The Eagle Clan is the keeper of knowledge and is responsible for spreading seeds of wisdom.

MARTEN CLAN: ECONOMIC DEV.

The Marten Clan is known as the warriors and builders within their community, as well as skilled hunters and providers. The Marten Clan became renowned as master strategists in planning the defense of their people, and they also adopt individuals who do not know which clan they belong to.
