Lunaapeew Alphabet Flash Cards

What is this package?

The Lunaapeew alphabet flash cards are printable cards that can support language learners in becoming familiar with the letters, vowels, and consonant pronunciations in Huluniixsuwaakan (Delaware language).

Things to note

Some consonants like p,b,d,g,zh become voiced following a nasal consonant (air escapes through the nose and not the mouth) like m and n. There are vowels that do not appear at the beginning of a Lunaapeew word. Some consonants have bracketed pronounciation, however most follow the English alphabet.

Table of Contents:

Lunaapeew Consonants . . . . . Page 3

Lunaapeew Short and Long Vowels . . . . . .Page 10

Lunaapeew Syllables C + V . . . . . Page 13
